Project Title: Skins Website

I'd like to build a multi-page website about the British Television Show, *Skins*. I believe I'd like to have the navigation as a sidebar. I think there is plenty of information and imagery I can use for this website, since the characters and settings change every 2 seasons which comprise of a "generation" of characters.

- 1 Home Page/Landing Page: Basic information about the show
- 2 First Generation of characters, Plot (Season 1,2)
- 3 Second Generation of characters, Plot (Season 3,4)
- 4 Third Generation of characters, Plot (Season 5,6)
- 5 Skins Redux (Season 7)
- 6 Awards
- 7 Sources
